

ERASMUS+ project KA121-SCH-C5EB4945

« GREEN ACROSS BORDERS »

including an Etwinning project « For Green Citizen »

Erasmus Projct among others at *Lycée Maurice Ravel* of Saint jean de Luz

A new project with our Norwegian partner to extend our cross-border work on Sustainable Development Goals.

Our current projects : <http://nbepius.franceserv.eu/ForGreenCitizen.html>

Title of the project : **Green across borders** - Local case study of ecocitizenship

Host High school in Farsund (Norway) :

Eilert Sundt
videregående skole

Referent norwegian teacher : Borge TJORN

Referent french teacher : Laurie PETOIN

Short description :

Meeting between Norwegian and French students to exchange sustainable development practices at school and in the city.

Discovery of the particularities of each country in the implementation of democracy as well as in the search for solutions to preserve biodiversity and reduce global warming.

Goals :

The aim is to compare democracy, inclusion and sustainability.

- Students will observe the inclusion of people with disabilities in Norwegian high school
- Students will discover cases of local governance system
- Students will improve their English level (the only way to communicate together)
- Students will develop their digital skills
- Students will present particularities of their school, their country and their city, and discover those of the other country, to compare their practices about living sustainably (to reduce global warming / preserve biodiversity / promote democracy).
- Students will participate in an Etwinning project (preparing the trip, the meeting in each country, the comparison of green practices of the two European cities)

Students :

30 French students 16-17 years old

30 Norwegians students 16-17 years old

Evaluation of the project

A survey to ask students and teachers

- if they feel they have improved their english language
- if they feel they have discovered Norwegian or French culture
- what they liked and what they liked less

A complete final digital production (digital book or poster or video)
